2X Binocular Doubler

Congratulations on your purchase of the Vortex 2x Binocular Doubler. We're sure you'll enjoy the added magnification boost made possible with this lightweight, field-ready, rugged, weather resistant, and optically sharp instrument.

The Doubler fits on the left or right eyepiece of a variety of Vortex binoculars with eyecups measuring 40 to 43mm in diameter. Try it on both eyepieces and choose the one that works best for you.

SET-UP

Place the Doubler over the binocular eyecup and push down until it covers the entire rubber eyecup and feels firmly attached. To remove, simply pull it off the eyecup.

FOCUSING THE DOUBLER

Use the center focus of the binocular to focus.

ADJUSTING THE EYECUP

If you don't wear eyeglasses, twist the Doubler's eyecup out for a comfortable, full field of view.

If you wear eyeglasses or sunglasses when using binoculars, make sure that the Doubler's eyecup is twisted down.

LIFETIME WARRANTY

We build optics based on our commitment to your absolute satisfaction. That's why our products are unconditionally guaranteed and we make this Very Important Promise to you—a Very Important Person.

Rest assured that in the event this product becomes damaged or defective, we will repair or replace it at no charge to you. Call us at 800-426-0048 for prompt, professional, and friendly service.
